EDUCATION

2020 - 2024

BACHELOR OF
COMPUTER SCIENCE

- BirZeit University

2019 - 2020

SECONDARY SCHOOL

- Tawjihi certificate at Karbatha-baniharith secondary school

SKILLS

- Project Management
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Problem Solving
- Spring-Boot Framework
- ASP.NET Framework
- Angular.JS Framework
- Django Framework
- Platform Application (Android)

LANGUAGES

- English (Very Good)
- Arabic (Native)

PROFILE

Hey, my name is Yousef Injass and I'm a fourth-year Computer Science student at Birzeit University. I have a strong interest in software development and programming, and I've got a good handle on the theoretical side of computer science. I'm always looking for opportunities to learn and grow in this field and I'm excited to start applying what I've learned in the career field. My goal is to become a successful software developer, and I focus on building a successful career as a software developer.

WORK EXPERIENCE

Iconnect Technologies

Full-Stack Trainee

- Backend Development Proficiency: demonstrated adeptness in utilizing the C# programming language to engineer robust backend solutions, complemented by proficient application of the ASP.NET framework for the development of scalable and efficient web applications.
- Frontend Development Expertise: exhibited mastery in client-side scripting with JavaScript to create dynamic and engaging user interfaces, coupled with proficiency in leveraging the Angular framework to craft sophisticated and interactive web experiences.
- Security Awareness and Implementation: Acquired a comprehensive understanding of fundamental cybersecurity principles and methodologies, integrating rigorous security protocols into web development endeavors to ensure the integrity and confidentiality of digital assets.

Gaza Sky Geeks

UX/UI Design Course

Undertook an intensive UI/UX fundamentals course where I honed my abilities in creating impactful user interfaces and optimizing user experiences. Proficiently utilized industry-standard tools like Figma to design and prototype user-centric interfaces, culminating in a project that showcased my acquired skills.

Birzeit University

My Own Projects

Throughout my academic tenure at the University, I engaged in a series of impactful projects that underscored my proficiency in software development and problem-solving. My standout achievements include spearheading a web application for a school management system as my graduation project, showcasing my adeptness in full-stack development and database management. Additionally, I developed an Android application tailored for the BZU clinic and student community, reflecting my commitment to practical solutions and user-centric design. Complementing these endeavors, I have actively contributed to various projects, all accessible on my GitHub repository, affirming my dedication to ongoing learning and collaborative development.
